_final::assignment_vec  
_celem_op_rtc_node"] --> B["exprtk::details::is  
_vector_celem_rtc_node"]; B --> C["exprtk::details::expression  
_node::type"]
```

This diagram illustrates a sequence of three classes or components. The first component, 'exprtk::details::exprtk_final::assignment_vec_celem_op_rtc_node', is highlighted with a grey background. A blue arrow points from it to the second component, 'exprtk::details::is_vector_celem_rtc_node', which has a white background. Another blue arrow points from the second component to the third component, 'exprtk::details::expression_node::type', also with a white background. All components are enclosed in rectangular boxes with black borders.
