

```
exprtk::details::string  
_function_node::value
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text `exprtk::details::string_function_node::value`. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text `exprtk::details::generic_function_node< T, StringFunction >::populate_value_list`.

```
exprtk::details::generic  
_function_node< T, StringFunction  
>::populate_value_list
```
