

exprtk::details::switch
_node::value

```
graph LR; A["exprtk::details::switch  
_node::value"] --> B["exprtk::details::is_true"]; A --> C["exprtk::details::expression  
_node::value"]
```

The diagram illustrates a switch node in the ExprTk library. A gray box on the left, labeled 'exprtk::details::switch_node::value', has two blue arrows pointing to two white boxes on the right. The top white box is labeled 'exprtk::details::is_true' and the bottom white box is labeled 'exprtk::details::expression_node::value'.
