

exprtk::details::vec
_data_store::match_sizes

exprtk::details::vec
_data_store::operator=

exprtk::details::vec
_data_store::min_size

```
graph LR; A["exprtk::details::vec_data_store::match_sizes"] --> C["exprtk::details::vec_data_store::min_size"]; B["exprtk::details::vec_data_store::operator="] --> C;
```

The diagram illustrates a relationship between three code snippets. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'exprtk::details::vec_data_store::match_sizes'. The bottom box contains the text 'exprtk::details::vec_data_store::operator='. On the right, there is a gray rectangular box with a black border containing the text 'exprtk::details::vec_data_store::min_size'. Two blue arrows point from the right side of the top-left box to the left side of the gray box, and from the right side of the bottom-left box to the left side of the gray box.
