```
graph LR; A["exprtk::details::exprtk_final::assignment_vecvec_node"] --> D["exprtk::details::vector_interface::vds"]; B["exprtk::details::exprtk_final::assignment_vecvec_op_node"] --> D; C["exprtk::details::generic_function_node::init_branches"] --> D; E["exprtk::details::exprtk_final::swap_vecvec_node"] --> D;
```

The diagram illustrates a directed graph with four source nodes on the left and one target node on the right. The source nodes are: 'exprtk::details::exprtk_final::assignment_vecvec_node', 'exprtk::details::exprtk_final::assignment_vecvec_op_node', 'exprtk::details::generic_function_node::init_branches', and 'exprtk::details::exprtk_final::swap_vecvec_node'. The target node is 'exprtk::details::vector_interface::vds'. Blue arrows point from each of the four source nodes to the target node.
