

```
exprtk::details::while  
_loop_node::node_depth
```

A diagram showing a call to the `compute_node_depth` function. A grey box on the left contains the code `exprtk::details::while` and `_loop_node::node_depth`. A blue arrow points from this box to a white box on the right. The white box contains the code `exprtk::details::node`, `_depth_base < expression`, and `_node < T > >::compute_node_depth`.

```
exprtk::details::node  
_depth_base < expression  
_node < T > >::compute_node_depth
```
