

include_3rd_party/Syntax
Printer.h

```
graph TD; A[include_3rd_party/SyntaxPrinter.h] --> B[string]; A --> C[slang/parsing/Token.h]
```

The diagram illustrates a header file dependency. A central box at the top represents the file `include_3rd_party/SyntaxPrinter.h`. Two blue arrows originate from the bottom of this box and point downwards to two separate boxes below it. The left box contains the text `string`, and the right box contains the text `slang/parsing/Token.h`. This visualizes that the `SyntaxPrinter.h` header file includes both the `string` library and the `Token.h` header file from the `slang/parsing` directory.
