

extractAndPrintNetlistInfo

```
graph LR; A[extractAndPrintNetlistInfo] --> B[LogicExtractor::getPrimaryInputs]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'extractAndPrintNetlistInfo'. The right box is gray with a black border and contains the text 'LogicExtractor::getPrimaryInputs' on two lines. The blue arrow originates from the right side of the first box and points to the left side of the second box.
