

LibFile::modifySpiceNetlist

```
graph LR; A[LibFile::modifySpiceNetlist] --> B[LibFile::generateRCLines]; A --> C[LibFile::splitString];
```

A diagram illustrating function calls. A central box on the left, labeled 'LibFile::modifySpiceNetlist', has two blue arrows pointing to two boxes on the right. The top box is labeled 'LibFile::generateRCLines' and the bottom box is labeled 'LibFile::splitString'.

LibFile::generateRCLines

LibFile::splitString
